3. Riya Jadhav (CO-B)
4. Harsh Hinukale (AIDS-B)
5. Parth Charankar (AIDS-C)

Mentor: Mr. N.D. Gaikwad

PROBLEM STATEMENT :

33%

of Indian women face
street harassment daily

70%

emergencies go unreported
due to delayed response

4 min

average police response
time in urban India

Core Challenges

- Women don't know whom to call in an emergency situation
- Explaining location takes too long — every second matters
- No instant alert system to reach family, friends & nearby help
- Existing apps are complex, slow, and not built for Indian users

Relevant SDGs

SDG 5

Gender Equality

End violence & discrimination against

SDG 3

Good Health & Well-being

Promote safety and health for women

SDG 16

**Peace Justice & Strong
Institutions**

Reduce violence & ensure access to justice

OUR SOLUTION — SafeHer

One tap. Instant safety.

SOS

SOS Button

One tap triggers instant alert to emergency contacts with live GPS

Live Location

Real-time location shared until user marks safe

SMS Alert

Emergency SMS sent even without internet via MSG91

Fake Call

Simulate incoming call to escape danger discreetly

Shake Trigger

Shake phone to fire SOS hands-free

Community

Nearby opted-in users alerted within 2 km radius

Relevant SDGs

SDG 9 – Industry, Innovation & Infrastructure

SDG 11 – Sustainable Cities

SDG 16 – Peace, Justice & Strong Institutions

SDG 17 – Partnerships for Goals

TECH STACK

Built for scale, speed and safety

FRONTEND

- Flutter (Dart) — Android & iOS from one codebase
- Stream — Pub/Sub real-time updates
- Google Location APIs — GPS detection
- Shared Preferences — local storage

BACKEND

- Python (FastAPI) — REST API server
- SQLAlchemy — ORM for database
- JWT Auth — token-based login
- DigitalOcean — Auto-scaling + production server

DATABASE

- PostgreSQL — secure, stable, scalable
- Redis — real-time data (alerts, contacts)
- Alembic — database migrations (fast)
- PgAdmin — database management UI

SERVICES

- Twilio — SMS / India SMS provider
- Firebase — Push notifications
- Google Maps — live location sharing
- Backery App — backend cloud hosting

ADVANTAGES

Why SafeHer beats every alternative

Feature	SafeHer	Himmat Plus	Raksha
One-tap SOS	✓ Yes	✓ Yes	✓ Yes
Shake to Trigger	✓ Yes	✗ No	✗ No
Works Offline (SMS)	✓ Yes	✗ No	⚠ Partial
Fake Call Feature	✓ Yes	✗ No	✗ No

India-First (SMS/IPS)	✓ Yes	⚠ Partial	⚠ Partial

COMMUNITY SUPPORT

Helping Communities, One Request at a Time

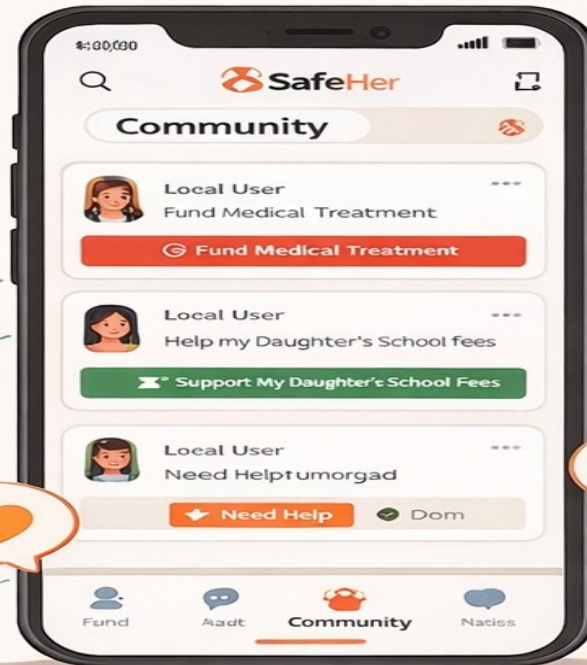

Users can request or provide help for critical needs within a local community

Medical Assistance

- Need urgent blood donation
- Funds for surgery cost

Education Support

- Financial aid for tuition fees
- Helping a girl go to school

Emergency Funds

- Child in urgent need of treatment
- Help needed after accident

Safety Against Misuse

- ✓ User Verification
- ✓ Report & Block System
- ✓ Trust Score & Moderation

Building a trusted platform for genuine community support

BUDGET

Investment required to launch SafeHer

Development		Himmat Plus	Raksha
Flutter app development (12 months)		₹0	Built in-house by founder
Infrastructure	Cloud hosting — Railway.app / AWS	₹2,400/mo	Scales with user growth
SMS Alerts	MSG91 SMS credits (10,000 SMS)	₹1,500/mo	~₹0.15 per SMS
Maps & Location	Google Maps API (1M requests)	₹1,400/mo	Free up to 28k requests
Push Notifications	Firebase Cloud Messaging	₹0/mo	Free tier sufficient
Play Store	Google Play Developer Account	₹1,750	One-time lifetime fee
Domain & SSL	Safeher.in domain & HTTPS cert	₹800/yr	Annual renewal
Estimated Monthly Running Cost		=₹5,300 / month
